OUR MISSION

It is our mission to provide effective and efficient guidance to high school students as they progress on their journey to prepare for college. Our organization will help utilize students with the resources, information, and assistance they will need to efficiently complete the college application journey. We make it our priority to cater to the diverse array of interests that many high school students have. Therefore we have structured our organization in such a way that allows us to provide students with information on our nine major college programs. We strive to be an outlet for diverse experiences and interests, therefore we can help shape the minds of the future leaders of America, and the entire world. We hope that you find everything that you need, and remember, that WE ARE HERE FOR YOU!

**Sincerely,
The Team**
